## EDUCATION

### Arizona State University, Tempe, AZ

- BS, Graphic Information Technology Expected Dec 2025
- MS, Graphic Information Technology (Accelerated) Expected Jun 2026

## EXPERIENCE

### BirthdayMessaging.io

#### Full-Stack Web Developer: July 2025 – Present

- Delivered production features for Birthday Messaging 2.0 with React, Tailwind, Python, SQL, accelerating releases and boosting reliability.
- Enhanced accessibility with WCAG-compliant components and keyboard navigation, improving usability for assistive-tech users.
- Expanded the design system with reusable React/Tailwind components, standardizing UI and cutting onboarding time.
- Managed a remote contributor, hosting weekly video standups and publishing recordings to keep work aligned.

### BirthdayMessaging.io

#### Full-Stack Web Development Intern: May 2025 – Jul 2025

- Built initial features with React, Tailwind CSS, and Python, gaining full-stack development experience.
- Fixed accessibility issues (contrast, semantic HTML) to improve user experience.
- Supported backend integration with Python, SQL, and REST APIs, documenting workflows for senior developers.

### Arizona State University

#### Computer Science Grader (Web Development) — 2024

- Evaluated HTML, CSS, Git/GitHub assignments; ensured rubric alignment and integrity.
- Delivered feedback that improved student code and documentation.
