Arizona State University, Tempe, AZ

- **MS, Graphic Information Technology** — **With Distinction** — **Aug 2026**
- **BS, Graphic Information Technology** — **Summa Cum Laude** — **Dec 2025**

EXPERIENCE

BirthdayMessaging.io

Full-Stack Web Developer: July 2025 – March 2026

- Developed and delivered production features for Birthday Messaging 2.0 with React, Tailwind, Python, SQL, accelerating releases and boosting reliability.
- Enhanced accessibility with WCAG-compliant components and keyboard navigation, improving usability for assistive-tech users.
- Expanded the design system with reusable React/Tailwind components, standardizing UI and cutting onboarding time.
- Managed a remote contributor, hosting weekly video standups and publishing recordings to keep work aligned.

BirthdayMessaging.io

Full-Stack Web Development Intern: May 2025 – Jul 2025

- Built initial features with React, Tailwind CSS, and Python.
- Fixed accessibility issues (contrast, semantic HTML) to improve user experience.
- Supported backend integration with Python, SQL, and REST APIs, documenting workflows for senior developers.

Arizona State University

Computer Science Grader (Web Development) — 2024

- Evaluated HTML, CSS, Git/GitHub assignments; ensured rubric alignment and integrity.
- Delivered feedback that improved student code and documentation.
